We produce various types firelighters, fireplace blocks and as a supplement assortment cleaning agents for equipment in which our flagship products are used (BBQ's and fireplaces). We are biggest Polish company in this industry, functioning on foreign markets.

Our products have European certifications: FSC and DIN. The production process of our products is covered with certificate ISO : 9001: 2015.

We also have our own trademarks „Ecoshine” and „Smok (Dragon) vs. Smog” reserved in the Patent Office.

These reservations in the form of word and graphic are part of the main company strategy: production of ecological and smog-less products. The company's high intellectual value is having many industrial designs, patents and technology and know-how.

smog-less

ecological

COMPANY'S MAIN MISSION: ECOLOGICAL AND HIGH QUALITY RAW MATERIALS

- soft pressed fiber board, hot pressed without any additions
- medium - vegetable waxes from rapeseed oil n-paraffin, esters
- High calorific charcoal from South America
- smog-less coal briquettes (coal undergoes special treatment)
- coniferous wood - pine, spruce, fir and hardwood

COMPANY'S GOAL IS ALSO MANUFACTURED PRODUCTS FROM ECOLOGICAL RAW MATERIALS IN ECOLOGICAL PACKAGINGS.

- made of raw materials from recycling
- paper and cardboard for packaging
- packaging can be burned during heating or grilling
- firelighters based on n-paraffin are individually packaged and do not get your hands dirty
- often paper packaging is a kindling, as in the case of fireplace firelogs „Golden Wood” or white firelighter in sachets

BEYSTER
MANUFACTURER OF INNOVATIVE FIRE

BROWN FIRELIGHTER (PLATES)

Made of porous fiberboard and waxes of vegetable origin.
Our plate has standard dimensions 175x115mm.
We make it from a fiber board in a variety of thicknesses:
12 mm, 15 mm and 18 mm. Plates are cut on 24 or 32 cubes.
In some versions it is possible cutting from both sides.

It is packed in a cardboard box or paper in quantity
from 1 to 4 pcs.

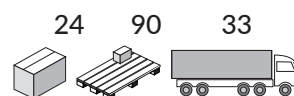

LOGISTIC:

size 175x115x18 mm - net weight 180 g [+/- 5 %]

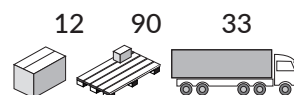

size 175x115x15 mm - net weight 160 g [+/- 5 %]

size 175x115x12 mm - net weight 120 g [+/- 5 %]

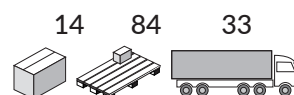

Firelighter 24/32 box/paper 1 plate 175x115x18 mm
24 pcs / 90 cartons / 33 pallets

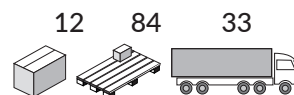

Firelighter 48/64 box/paper 2 plates 175x115x18 mm
12 pcs / 90 cartons / 33 pallets

Firelighter 72/96 box/paper 3 plates 175x115x15 mm
14 pcs / 84 cartons / 33 pallets

Firelighter 72/96 box/paper 3 plates 175x115x18 mm
12 pcs / 84 cartons / 33 pallets

BROWN FIRELIGHTER WITH IGNITION

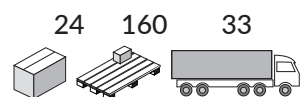

Made of porous fiberboard and vegetable waxes. This firelighter is in the form of match-head stripes (12 or 24 pieces). The dimensions of one stripe are 170x60x18mm. The basic packaging is printed box with a window and striking surface. This firelighter is universal, it is suitable for grills and fireplaces. There is no need for additional fire source.

LOGISTIC: size 175×60×18 mm - net weight 100 g [+/- 5 %]

Firelighter 12 pcs box 1 plate with 12 match heads
 packed into box
 24 pcs / 160 cartons / 33 pallets

Firelighter 24 pcs box 2 plates with 12 match heads
 packed into box
 24 pcs / 90 cartons / 33 pallets

BEYSTER
MANUFACTURER OF INNOVATIVE FIRE

LONG-FIRE FIRELIGHTER

Made of porous fiberboard and vegetable waxes.
Dimension of single long fire is 150x30x8mm.
It has a wide range of applications. It is ideal as
a kindling for fireplaces or bonfires. Packed in paper,
tube or box with striking surface.

reserved design 004127330-0001

LOGISTIC: size 150×30×8 mm – net weight 20 g [+/- 5 %]

Firelighter 8 pcs paper

8 plates 150×30×8 mm

Firelighter with ignition 8 pcs carton

8 plates 150×30×8 mm

BEYSTER
MANUFACTURER OF INNOVATIVE FIRE

BROWN FIRELIGHTERS (CUBES)

Made of porous fiberboard. We also produce cubes with dimensions of 20x27 or 27x27 and thicknesses 12mm, 15mm, 18mm and additionally 35mm.

Different kinds of packings are available. Firelighter cubes are odorless, safe in use, with no expiration date and ecological. Cubes are universal and have many applications.

reserved design NR 005138138-0001

The packaging and its capacity depend on the number and forms of packed cubes. Logistics individually designed.

BEYSTER
MANUFACTURER OF INNOVATIVE FIRE

WOOD WOOL FIRELIGHTERS – MADE OF CONIFEROUS WOOD AND VEGETABLE WAXES

A single wood wool roll has a diameter of aprox 2 cm and a length of aprox 5 cm.
A wood wool version is also available with ignition.

Wool wool rolls are packed in tubes, bags and boxes. Logistics selected individually depending on the type and the size of packages.

BEYSTER
MANUFACTURER OF INNOVATIVE FIRE

THE COMPANY'S MISSION IS PRODUCTION OF ECOLOGICAL AND SMOG-LESS COMBUSTION FIRELOG BLOCKS FOR FIREPLACES AND FURNACES

„DO NOT BURN FORESTS, BURN BEYSTER PRODUCTS”

The basic product is HB BLOCK / Golden Wood made of compressed sawdust and willow saturated with ecological vegetable waxes.

	HB „GOLDEN WOOD”	WOOD
calorific value	37 000 KJ	14 500 KJ
ash content	0.2 %	12 %
humidity	0.6 %	15 %
sulfur content	0.1 %	1 %

Central Mining Institute
Solid Fuels Quality Assessment Department

APPLICATION AND METHOD OF USE

HB BLOCK produced by Beyster is designed for fireplaces and stoves.

HB BLOCK is a much better choice than firewood:

- more than twice the energy value
- practically burns entirely without leaving ash
- 10 times lower sulfur content
- burns dynamically
- no firelighter required, because the product packaging (paper) transfers fire to the block
- due to the minimal humidity, it does not settle on the chimney walls
- easy to use
- when burning, it emits the sounds of crackling wood

BEYSTER
MANUFACTURER OF INNOVATIVE FIRE

HB BLOCK „GOLDEN WOOD” - FAMILY OF PRODUCTS WITH SMOG-LESS AND ECOLOGICAL FEATURES

HB BLOCK „Golden Wood” 700 g
HB BLOCK „Golden Wood” ministarter 150 g
HB BLOCK „Golden Wood” sweeping log 800 g
HB BLOCK „Golden Wood” sweeping log 1 kg

Upon customer's request, we produce other HB BLOCK weight
e.g. 800 g, 900 g, 1.1 kg, 1.2 kg

Beyster's products are signed with their own registered
trademarks, which define their features:

smog-less

ecological

company's intellectual property no. Z.410950

A firelog consisting of compressed sawdust saturated with ecological vegetable waxes. The packaging is printed paper which is also an ignition. The product is recommended for firing in ovens, fireplaces or bonfires.

The burning time is about 2 hours. Easy and clean to use (you do not have to pull it out of the package, just set on fire both ends of paper). Great in combination with a fireplace briquette. It sells very well in: Scandinavian countries, the Netherlands, Germany, Italy, England and Ireland.

BEYSTER
MANUFACTURER OF INNOVATIVE FIRE

ELIMINATOR – SWEEPING LOG

It is a block consisting of compressed wood sawdust, paraffin and specially selected chemical mixture. This formula has been patented and registered in the Patent Office. Thanks chemical mixture our product removes residual soot deposits in chimney pipes. Systematically used reduces fuel consumption, increases heating efficiency and reduces the risk of soot burning in the chimney pipes. The product is also easy and clean in use. Do not tear the package. Product should be used in already burning fireplace/stove.

Cleaning agent is produced by the company Beyster under the name „Bestpal” and is owned intellectual company.

A product very popular in Spain, Portugal and England.

company's intellectual property no. Z.430286

BEYSTER
MANUFACTURER OF INNOVATIVE FIRE

LIGNITE BRIQUETTES

Beyster company offers also lignite briquettes (subjected to special treatment), packed in paper bags. Physico-chemical parameters briquettes are much better than of regular dry wood.

	HeatBag / Briquettes	Wood
Heating value	21000 kJ	14500 kJ
Ash content	0.3 %	12 %
Sulfur content	0.04 %	1 %
Humidity	15 %	15 %

BEYSTER
MANUFACTURER OF INNOVATIVE FIRE

CHARCOAL AND BRIQUETTES MIX

Aiming for comprehensive supply of ours customers Beyster produces a mix of charcoal and briquette from South America. For production of this product we use exotic wood Quebracho Blanco from South America.

It is a smokeless product with a high calorific value - 7000 kcal. Its efficiency is 3-4 better than of standard BBQ charcoal. Packed in 5 kg sacks. At the client's request, different weight packages available.

Considering the characteristics of this charcoal, it can be used for grilling on balconies and terraces. The condition is that we will use for ignition a spirit gel, which is also smokeless and odorless.

BEYSTER
MANUFACTURER OF INNOVATIVE FIRE

WHITE FIRELIGHTER BASED ON HIGHLY PURIFIED N-PARAFFIN

In addition and to complete above-mentioned smog-less and ecological products these are highly purified n-paraffin based firelighters, derivatives of crude oil, which with the addition of natural raw materials such as esters, vegetable waxes, are environmentally friendly.

Please pay special attention to the sachets packed in a cardboard box. This is much better version of the white firelighter offered in the form of blocks/plates.

- does not make your hands dirty
- does not oxidize, does not have expiry date
- favorable for storage
- easier to dispense

Sachets in a cardboard box:

- 20 pcs × 8 g
- 24 pcs × 6 g
- 32 pcs × 5 g

Other available packages:

- tube - 50 pcs
- tube - 100 pcs
- carton - 500 pcs
- carton - 650 pcs

TOURIST FUEL

Beyster has developed a safe, non-toxic touristic fuel. Other products offered on the market are based on hexamine, which produces strongly poisonous combustion gases. Sensitizing effect may cause allergy or asthma symptoms.

Choose the product of our company that can be used as tourist fuel or firelighter to chimneys, grills etc.

TOURIST FUEL PRODUCED BY BEYSTER HAS ECOLOGICAL FEATURES AND IT IS SECURE.

- non-poisonous
- non-irritating to the skin
- does not oxidize
- waterproof

EU registered design NO. 00411563-001

Burning time:

1 unit – aprox 10 minutes – heating

2 units – aprox 20 minutes – cooking

BEYSTER
MANUFACTURER OF INNOVATIVE FIRE

LIQUID FIRELIGHTER WITH ADDITION OF NATURAL ECOLOGICAL OILS

Firelighter product in form of liquid.
Manufactured from high quality n-paraffin
(the same that we use for production
of white firelighter in form of sachets).

The advantage of our liquid firelighter is that it is more dense
than other liquids available on the market.

Thanks to this, its use provides more safety during firing up.

LIQUID FIRELIGHTER

Produced from esters based on rapeseed oil. That is why it is a 100% eco-friendly product. It does not give off an unpleasant smell.

Effective and easy to use.

GRILL CLEANER

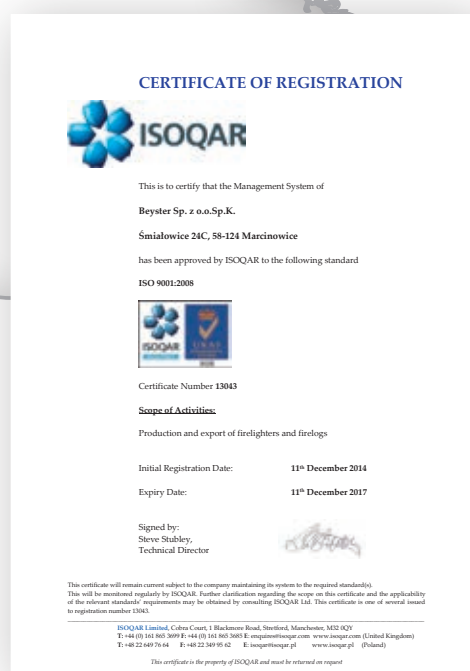

A very efficient and effective cleaning agent for grill elements. Removes sediment, fat and scorching occurred during grilling. It is also suitable for cleaning fireplace glass. The chemical formula is intellectual property of Beyster.

Try and you will realize that it is the most effective.

OUR QUALITY CERTIFICATES:

BEYSTER
MANUFACTURER OF INNOVATIVE FIRE

*We hope that all the products we have presented
they will find recognition among our clients.*

Thank you for your interest.
